Tomorrow Last Day For Filing

Candidates Seeking Office Must Declare Their Intention by Tuesday Midnight

The last chance for aspirants for public office to file their intentions to become candidates, closes at midnight Tuesday. County Clerk J. H. Green, in checking over the declarations of candidates for the various offices is confident both political parties will have at least one candidate for each office.

Two years ago filings for the various offices did not close until June 30, but a change in the election laws made through the voting of a new Constitution for Missouri, resulted in moving the closing date filings, up to the last Tuesday in April. Thus the closing date this year is April 27, Tuesday.

Only filings to be made at the county clerk's office are for the county offices and for representation in the state legislature from Pettis county. Candidates for Representative in Congress, Washington, D. C., from the Sixth Congressional District of which Pettis county is a part, and for state senator at Jefferson City from the 33rd District, of which Pettis county is a part, are made at Jefferson City with the secretary of state.

For Congress

For Representative in Congress, Washington, D. C., sixth district, two Democrats and two Republicans are seeking the nominations on their tickets: D. Kelly Scruton, Sedalia, and George H. Christopher, Amoret, are seeking the Democratic honors while Marion T. Bennett, present Congressman from Springfield, and Clarence Franklin Fast, of Lamar, seek the Republican nomination.

Filings for state senator, 33rd district, at present are two Republicans: C. R. "Ted" Hawkins, Brumley, present senator, and Thomas G. Woolsey, Boonville. W. W. Blain, Sedalia, present senator, is not filing for re-election it was stated.

For representative in the state legislature at Jefferson City, from Pettis county, are two Republicans, Harvey Dow, present representative, and Rev. John Stuart Mills, who seek the nomination, and Dan Doty, Democrat, who is unopposed for the nomination.

File In Jefferson City

Filings for governor, lieutenant governor, secretary of state, state auditor, state treasurer, attorney general, are also made at Jefferson City.

The office of sheriff appears more attractive than any at stake in the county. At present there are nine candidates seeking the two nominations. The Republicans have four, one of whom is Sheriff Edw. Goetz, seeking re-election, while five candidates are vying for the Democratic nomination.

However up to this afternoon no candidates have filed for either county survivor or public administrator. It was reported by members of the two political parties that candidates would call at the county clerk's office before closing time.

Local Filings

The local offices and candidates who have filed for the nominations along with the present office holder are:

Sheriff, now held by Sheriff Edw. Goetz, republican, seeking re-election. Other Republicans are: F. A. "Fritz" Griessen, Archie Smith, Jr., and Carl J. Meyer. Democrats seeking the nomination are: John F. Taylor, S. J. (Please Turn To Page 4 Col. 2)

Optimists to See Sport Shorts Movies

LeRoy Nichols, program chairman for the Optimist club for the month of April, will invite members to be his guests at the Liberty theatre, of which he is manager, immediately after the luncheon meeting Tuesday noon.

He will show a number of sport shorts.

Scudder Hull to Address Lions

Scudder Hull, of Sedalia, author of the book "What Becomes of Us" will be the guest speaker, talking on his book and its contents, at the Lions club meeting at the Bothwell hotel, Wednesday noon.

He will be presented by Joe Ruddick, program chairman for the month of April.

Flood Deaths Mount

WINNIPEG, Man., April 26—(P)—Flood deaths in Canada's prairie provinces mounted to 11 today.

The flood threat lessened to a certain degree in Saskatchewan, but showed no signs of diminishing in Manitoba. An unseasonal snowstorm lashed Alberta, renewing the danger of floods there.

Woodland Hospital Notes

Dismissed: Harold A. Drew, Marshall.

Admitted for surgery: Mrs. Ernest Eckhoff, Ionia.

Welcome National Officer

Elmer Brown (left) Indianapolis, vice-president of the International Typographical Union, is being welcomed to the Missouri Typographical Conference at the Bothwell hotel Saturday night by Earl C. Brown, St. Joseph, conference president. William Burton, Sedalia, vice-president of the state conference, stands in the background. (Staff Photo)

Mo-Pac Wants To Close Four Stations

Earnings Are Declining at Each Station, is Report

JEFFERSON CITY, April 26—(P)—The Missouri Pacific railroad told public service commissioner Charles Henson today that revenues are insufficient to maintain agent stations at Lupus, Clarksburg, McGirk and Napton. It asked immediate permission to close them.

Each is served by one agent, on duty eight hours daily to handle incoming and outgoing freight. No passenger trains stop now at any of the points. Earnings are declining at each of the stations, the railroad complained, despite efforts to increase trade. Future plans call for consignments through neighboring towns.

Farmers and businessmen from each of the towns were on hand to protest the contemplated closings.

Gallier

T. E. Gallier, Lupus postmaster, was to take the stand this afternoon to refute the road's contention that 10 carloads of tiff (barium sulphate) shipped from Lupus last July constituted a non-recurring revenue amounting to \$2,373.12.

Gallier owns the land from which the tiff was taken. He said more than 200,000 tons have been taken from the mines in recent years and 35,000 tons now is visible without exploration.

Clarksburg residents said telephone service to Tipton and California is bad. They would be forced to drive to those points to transact their railroad business, they said.

Methodist Leaders Meeting in Boston

BOSTON, April 26—(P)—Methodist leaders from all parts of the world arrived today for the denomination's quadrennial general conference, first to be held in Boston in 96 years.

More than 7,000 are expected for the 10-day session, opening Wednesday with a service in fashionable Trinity Episcopal church.

Sixty-six bishops, including 17 from foreign countries, are due to attend the conference, which closes May 9.

Women Planning Program For Rededication Week

Women of Sedalia are making extensive plans for their part of the Rededication Week program, which will be on June 5, in the week prior to the coming of the Freedom Train. The committees appointed by Mrs. Vivian E. McMullin, chairman, are meeting this afternoon to complete arrangements.

Tentative plans call for a parade, a street dance with square dancing and jitterbugging and other entertainment.

The committees named are as follows:

Parade: Mrs. Everett White and Mrs. Clyde Swafford, chairmen; Mrs. John Loague, Mrs. Elmer Dillard, co-chairmen; Mrs. C. W. Faulkner, Mrs. Minerva Ritchey, Mrs. Richard Buso, Mrs. Fred Brummet, Mrs. Leonard Williams,

Quadruplets Born in Detroit, Doing Fine

DETROIT, April 26—(P)—One boy and three girls were born today to Mrs. Anna Borg, a 30-year-old wife of a Ford Motor Co. auto worker.

The quadruplet births were her first.

Dr. Edward D. King, her physician, said the babies were "doing fine."

They were born at Providence hospital.

Opportunity For Sedalians To Hear Club

The Sedalia Men's Choral Club held its dress rehearsal Sunday afternoon for the spring concert to be presented, free to all, on Thursday night at 8:15 o'clock in the auditorium of the Smith-Cotton high school.

The program will be one of variety consisting of love songs, Negro spirituals, old time favorites, barber shop selections and religious hymns.

Special numbers will be a solo by Abe Rosenthal, conductor of the chorus and songs by a male quartet.

Preparations for the concert have been underway for the past three months and the final rehearsal will be Tuesday evening at Broadway school.

Those taking part in the concert Thursday night are:

Abe Rosenthal, directing; Lillian Fox, accompanist; Robert Austin, Dean Binderup, Paul Benson, Fred Brink, Lyle Brown, Kenneth Buckholtz, Hugh Campbell, Jim Denney, Al Doughty, Charles Hanna, Charles Hansford, Harold Hausman, John Hill, Bill Jackson, Lloyd Knox, George Lockett, Charles Maggard, Ed Martin, Joe Maunders, Irving Moore, R. F. Need, Neal Powers, Dick Snow, Addison Taylor, H. O. Wilbur, O. W. Wiley, David Mahnken, William C. Bessmer.

M. U. Professor Dies

COLUMBIA, Mo., April 26—(P)—Funeral services will be conducted tomorrow at Hwarden, Ia., for Dr. Herbert E. French, 58, professor of organic chemistry at the University of Missouri.

French died Saturday night from a cerebral hemorrhage.

His widow and one son, Herbert A. French, Jefferson City, survive.

Experiences As Prisoner of War Related

Mrs. Edna Carman Guest Speaker Of Rotary Club

Mrs. Edna Mertz Carman, guest speaker at Rotary club today noon at the Bothwell hotel, told many of her experiences during her imprisonment by the Japanese on the Philippine Islands during the war. Mrs. Carman also exhibited many souvenirs she had brought from the island and it is her intention to deliver these souvenirs to the Smithsonian Institute in Washington, D. C.

Z. Lyle Brown, president, presided over the meeting.

Invocation was by the Rev. T. W. Croxton and Dick Snow was song leader.

An announcement was made by the president of the district conference which will be held two days in St. Joseph on May 9 and 10.

Explained Freedom Train

Rev. J. Fred King introduced James T. Denny who explained the time and the exhibits of the Freedom train which will be in Sedalia on June 10.

The meeting was then turned over to Scudder Hull, program chairman, who introduced Mrs. Carman.

O. W. Wiley introduced the guests: Michael Spatz, representative of the Freedom Train, guest of James T. Denny; Mrs. Susan Berry, guest of Z. Lyle Brown; Earl Cleveland, guest of William B. Couhig; Rev. R. W. Leazer, request of W. O. Stanley and Rotarian H. A. Redman, Odessa, Texas.

Silver Bridal Path Parade

By Tom Williams

LONDON, April 26—(P)—King George VI and Queen Elizabeth, whose domesticity has endeared them to home-loving Britons, celebrated their 25th wedding anniversary today amid empire-wide rejoicing.

As congratulations poured in from far-off dominions, London plunged into the biggest display of royal pageantry since Princess Elizabeth married Philip last November.

From early morning thousands streamed into the capital to watch the royal family drive in state from Buckingham palace to St. Paul's cathedral for a national service of thanksgiving.

Flags of virtually all nations decked the "silver bridal path" where thousands waited to cheer their rulers.

The palace was a bustle of activity. First to congratulate the monarchs were Elizabeth and Philip.

Hart Challenge To Rep. Schwabe

JEFFERSON CITY April 26—(P)—Henry B. Hart of Versailles challenged Rep. Max Schwabe today for the Republican nomination in the Second Congressional district.

Hart issued a statement when he filed, criticizing Schwabe's record on international affairs.

"While our sons were still on the battlefield," he said, "our congressman was asking for a soft peace. Such talk is part of the cause of our present difficulties."

Hart formerly was Camden county treasurer, a member of the state house of representatives and the state senate. His old district was merged with others in senatorial redistricting two years ago. He is a farmer and real estate operator.

Flowers on Court House Lawn Attractive

Since early spring the court house lawn has had flowers blooming on both sides of the long curved walks to the entrance. First there were daffodils, then hyacinths and now tulips, tulips of many different kinds in shades of pink, reds and yellows. Blending in with the vivid shades of the tulips are, here and there, little patches of bright blue-grape hyacinths.

Citizens are stopping to admire this spring display of flowers which will be followed by flowering shrubs and roses.

Bothwell Hospital Notes

Dismissed: Mrs. C. J. Sanzotta and daughter, 215 South Grand avenue; Mrs. W. Floyd Pohl and son, 1525 West Main street; Mrs. Irvin Davis and daughter, 1300 South Ohio avenue; Mrs. C. G. Stauffer and daughter, 820 South Osage avenue; Mrs. Elizabeth Paxton, 1509 South Ingram avenue; Mrs. Frances McClure, Houstonia, Mrs. Pete Menece, 501 North Park avenue; Martin Mueller, Lincoln and Ruth Ann Wood, two-year-old daughter of Mr. and Mrs. Marion Wood, La Monte.

Admitted for medical treatment: Carol Wollett, 1412 West Broadway.

Admitted for tonsillectomy: Joseph T. Ghosen, 102 East Broadway.

Admitted for surgery: Mrs. Dorsey O. Adams, Houstonia.

Dismissed: Mrs. Clarence Riecke, Ionia.

Impatience May Ruin Your Store Teeth

JEFFERSON CITY, April 26—(P)—Some people ruin their new store teeth by being impatient, Dr. S. T. Williams of St. Louis said today.

Dr. Williams spoke at opening convention sessions of the Missouri State Dental Association.

"Patients unaccustomed to the new dentures make demands for immediate adjustment which frequently are entirely unnecessary," he said. "This sometimes results in trimming in the wrong places and consequent ruin of the dentures."

Eisenhower Addresses Junior C of C

Declares Some Stupid Act May Start War

WICHITA, Kas., April 26—(P)—General Dwight D. Eisenhower says the danger today is "that some stupid act may start a war—a stupid act that puts some nation in a position from which it feels it cannot withdraw."

He declared the danger lies in one dictatorship promoting its own future "through chaos, hysteria, fear and starvation." Others in desperation then may resort to arms, he added.

Eisenhower spoke yesterday at the Kansas Junior Chamber of Commerce state convention.

During a question and answer session, E. J. Smith of Wichita said from the audience: "No one has the confidence of this nation that you have" and "what they (the American people) want is that you represent us."

Ovation Followed

An ovation followed. Eisenhower, noticeably affected, said no man could hear such words without being deeply moved. He added that with each citizen "the welfare of this country must be first. Everyone must do his part. Whatever I do, you can be sure that will be uppermost in my mind."

Earlier Eisenhower had reiterated that his letter of last January, in which he informed New Hampshire Republicans he did not aspire to the presidency, was final.

Question Raised

A member of the audience asked whether Eisenhower thought it possible for a man trusted by "both parties—some statesman, a leader, a general—to go see" Joseph Stalin, Russia's premier.

"Don't you think those two men could work out a solution?" he was asked.

Eisenhower said it was impossible for any man to speak for the United States "with the authority that Mr. Stalin speaks for Russia—and if he could, it wouldn't be America."

Truck Driver Killed This A.M.

MONTGOMERY CITY, Mo., April 26—(P)—Leslie Donnell, Columbia, Mo., truck driver, was killed early today when his vehicle left U. S. Highway 40 and overturned near here.

Montgomery county coroner Dr. Clement W. Linnert said Donnell, 46, was driving east about 4:55 a. m. (CST) when he swerved to avoid hitting a barricade protecting a patch in the pavement.

The truck went off an embankment, Donnell was thrown from the cab, and the truck landed on top of him. A passenger, William Bass, also of Columbia, was not injured.

Nelson Eddy in Kansas City

KANSAS CITY, April 26—(P)—Nelson Eddy will sing at a concert here tonight, as scheduled. The sore throat which forced him to cancel a concert engagement in Davenport, Iowa, last Friday has eased sufficiently for the performance.

Stassen To Springfield

SPRINGFIELD, Mo., April 26—(P)—Harold E. Stassen, Minnesota aspirant for President, will make a Springfield speech on May 13. Republican leaders announced today.

The Weather

Central Missouri: Partly cloudy with little change in temperature tonight and Tuesday. Lowest tonight near 55 degrees.

Temperature: 7 a. m. 56 degrees; 3 p. m. 76 degrees.

Rainfall: 25 in.

Lake of the Ozarks: 64; rise 1.

Sun rise 5:22 a. m. Sun set 7:00 p. m.

New moon May 8; first quarter moon May 15.

Thought for Today

O Lord, who art our guide even unto death, grant us, I pray Thee, grace to follow Thee whithersoever Thou goest. In little daily duties to which Thou callest us, bow down our wills to simple obedience.—Christina Rossetti.

Lana Turner, B. Topping, Jr. Marry Today

Actress, Wealthy Sportsman to Start Off in Grand Style

HOLLYWOOD, April 26—(P)—Lana Turner of the million-dollar figure and Henry J. (Bob) Topping, Jr., of the tin-plate millions will merge their fortunes today in a tinselled Hollywood wedding.

Lana Turner

The 28-year old actress and the wealthy sportsman, 34, each will be starting a fourth matrimonial venture. And they'll get off in grand style—with typical filmdom trimmings.

The ceremony is scheduled for 2 p. m. (PDT) in the Bel-Air home of Publisher William R. Wilkerson, the man who first discovered Lana hanging over a soda fountain 11 years ago.

HOLLYWOOD, April 26—(P)

Thousands of flowers decorated the wedding scene of actress Lana Turner and millionaire Bob Topping today.

Florist Mordio Altabet said the floral decorations included: 100 dozen gardenias, 50 dozen gladioli, 98 dozen white stocks, 50 dozen English Hybrid delphiniums, 50 dozen roses, 50 dozen white larkspurs, 200 garlands of smilax, 300 garlands of delfixis fern, and 64 dozen white daisies.

The screen's foremost sweater girl will wear chintilly lace of champagne hue for this production. Carrying a bouquet of four large white orchids, she will descend a curving stairway on Wilkerson's arm while strings play the march.

Attendants

Topping and the Rev. Stewart P. McClellan will be waiting before an elaborate bower. Sara Hamilton, magazine writer, will be the maid of honor. Wilkerson will double as best man.

Adding to the ceremony will be the appearance of Lana's five-year old daughter, Cheryl, as flower girl.

That's Cheryl Crane, Lana's baby by Stephen Crane—twice her husband, Artie Shaw was her

(Please Turn To Page 4 Col. 2)

Discussing Freedom Train

Michael E. Spatz, (seated) of St. Louis, area representative for the American Heritage Foundation, which sponsors the program including the tour of the Freedom Train throughout the United States, is shown today discussing the train, which will be in Sedalia June 10, with Abe Silverman, Sedalia, standing, who is in charge of raising a fund to help pay for the train. This train carries 126 priceless original American documents, giving citizens an opportunity to see them, who cannot visit the historic places where they are kept permanently. (Staff Photo)

Important Events In Last Minute News

WASHINGTON, April 26—(P)—The oleo forces won a test against the butter bloc in the house today. That makes it virtually certain the house will pass legislation to end all federal taxes on oleomargarine.

The test came when the house voted to discharge its agriculture committee from further consideration of oleo tax repealer bills and to plump the issue directly on the floor immediately for a showdown.

The roll call vote to take up the repealer was 235 to 121.

WASHINGTON, April 26—(P)—Six countries—France, Italy, Austria, Holland, Norway and Denmark—have qualified for full assistance under the European recovery program, the economic cooperation administration said today.

Administrator Paul G. Hoffman said similar action by other nations is expected shortly.

WASHINGTON, April 26—(P)—Secretary Forrestal told senators today that if the defense program is left "solely to the military, they'll fortify the moon."

He said there are other things, such as the threat of inflation, which have to be considered when mapping America's armament spending program.

The secretary of defense testified to a senate appropriations sub-committee in a new round of congressional hearings on the 66 vs. 70 group air force controversy. He is battling for a 66-group air force. A 70-group one is favored by some military men and has strong backing in congress.

CHICAGO, April 26—(P)—Private talks between railroad management and officials of three operating unions continued today as negotiators sought to resolve a wage dispute and avert a possible strike tie-up of the nation's train service.

The union representatives have been directed to set a strike date "as soon" after tomorrow "as possible" if an acceptable settlement has not been reached then.

Informed of reports that a strike of the three unions might be called at midnight, J. P. Shields, vice president of the Engineers' brotherhood, said "Somebody's shooting at the moon. No strike date has been set. We are still conferring with the railroads."

He declined to predict future action of the unions.

Investigate Wooden Cross

SPRINGFIELD, Mo., April 26—(P)—Police investigation of a blazing wooden cross found in front of Temple Israel yesterday morning continued today, said Rabbi Ernest I. Jacob, who shed no light on the case.

Mr. Jacob said he had received no threats or calls which might explain the act. An officer suggested it might be a prank.

"We hope it is," Mr. Jacob replied fervently.

Both Jews And Arabs Mobilized

Prepare for Major Battle for Jerusalem; U.N. Assembly Moves For Quick Action

JERUSALEM, April 26—(P)—Arab volunteers, fighters stormed in and occupied Alamein village on the southern edge of Jerusalem today shortly after the British evacuated it. Not a shot was fired.

By Carter L. Davidson

JERUSALEM, April 26—(P)—A major battle for Jerusalem appeared to be shaping up today amid reports that King Abdullah of Trans-Jordan was preparing to move into Palestine at the head of his Arab legion.

Well informed sources in Cairo said Abdullah plans to lead the British trained legion against the Jews immediately. About two-thirds of the legion, or 10,000 men, already are on security duty for the British in the Holy Land.

Both Jews and Arabs mobilized on the southern edges of Jerusalem today.

To the west, the Jewish Irgun Zvai Leumi forces resumed their attack on Jaffa despite orders to stop, broadcast by Haganah, the Jewish defense army. Heavy bomb explosions preceded the attack, made under a cover of strong automatic weapons fire.

Jewish forces threw heavy mortar fire into Acre during the night but were repelled by British artillery. Most of the 200 captives of Acre prison escaped during the attack.

LAKE SUCCESS, April 26—(P)

The United Nations assembly today moved for immediate action to protect Jerusalem. The action was taken by 46 to 0 ballot in an emergency sitting of the assembly in plenary session.

The assembly proper was in session only five minutes. It approved a French-Swedish request calling on the trusteeship council to devise immediate plans to safeguard the Holy City and its inhabitants.

The same 58 delegates sat at the plenary assembly just after the political committee had accepted the plan 44 to 3. Russia, the Soviet Ukraine and White Russia voted in opposition in committee on the grounds that the assembly itself should institute the measures. In the final assembly vote, Russia abstained.

Flow of Oil Ceased

The flow of oil from Iraq into Haifa, leading eastern Mediterranean oil port which the Jews won last week, has ceased.

At Jerusalem, a British army regiment at noon was packing its gear to evacuate Alamein camp which lies astride the Bethlehem road leading south from Jerusalem. Part of the regiment already has moved out in the general evacuation scheme and officers said the rest would be gone by sundown. The British are to abandon their League of Nations mandate for Palestine May 15 and evacuate their troops by Aug. 1.

The Jews and Arabs appeared maneuvering for a battle to take Alamein camp.

Detachments Recognized

Haganah detachments were recognized in a line of Aleppo pine trees in the Jewish suburb of Talpith overlooking the camp. Many obviously were digging in. Some 200 yards in the other direction, four Arab armored cars wheeled into position with mortar crews and machine gunners aboard. Eight armored scout cars of the trans-Jordan Arab legion were parked at right angles to the entrance of the camp at 50 yard range.

The Arabs in upper Bakaa, the all-Arab suburb which lies between central Jerusalem and Alamein camp, obviously are girding for a fight. The control of Alamein camp is vital to the Arabs. In Jewish possession, it could block access to Jerusalem by the Arabs of Hebron, Beersheh and the south.

Blast a Bridge

Jews blasted a bridge over the Yarmuk river on the frontier of northern Palestine and Syria. The bridge had been used repeatedly for infiltration of Arab troops of the Yarmuk army, named for the same river and a famous Moslem victory.

The Arabs countered by blocking the Tel Aviv-Jerusalem highway in bloody Babelwad Gorge, 15 miles from Jerusalem. They set up a road barrier three feet high and 200 yards long. The British army announced. The same source reported a Jewish plane bombed the area yesterday, apparently trying to prevent erection of the barrier.

Grave Diggers on Strike

PITTSBURGH, April 26—(P)—Bodies are being temporarily placed in a receiving vault during a week-old strike of AFL grave diggers at Allegheny cemetery. The grave diggers are demanding a wage increase, including a \$11-an-hour minimum for laborers.

Pettis County Farm and Home News

Four-H Girls Are Taking Up Dress Projects

Meetings Held by Leaders at Sedalia Public Library

Four-H Clothing II and III leaders met Friday afternoon, April 16, in the Sedalia library. Demonstrations were given on how to put in a zipper and how to make shoulder pads for dresses. The group leaders scored and judged a class of cotton dresses. The dresses showed the characteristics that a good school dress should have. Girls making school dresses should remember that a school dress is one to be worn from September until May so it is preferable that it be dark in color, that the design and pattern be simple and still have style, that the dress have a sleeve, that the material be suitable for a year around dress of good quality and launder satisfactorily, that trimming be suitable and of same quality as the material, that color combinations should be harmonious and that the dress should be suitable to the girl wearing it and that it should be well made.

Clothing III girls make a summer dress. The material for this dress should be more sheer and the dress may be made of lighter color too, with or without sleeves as the styles suggest.

Leaders and members attending the Clothing II and III meeting were: Mrs. Maynard Ford, Maplewood; Mrs. E. L. Cramer, Ararat; Mrs. Stanley Gieschen, Lamine; Mrs. Charles H. Carney, Oak Grove; Mrs. Hall Walk, Houstonia; Mrs. Cecil Lockney, Houstonia; Mrs. R. C. Wissman, Flat Creek; Mrs. Otto Tegmeyer, Oak Point; and Mrs. Paul Read, Quisenberry.

Work On Wool Garments

Leaders and members for Clothing IV and V projects, met at the Sedalia library, Saturday afternoon, April 17. Four-H club girls enrolled in Clothing IV and V projects have their first experience of making garments of wool. Clothing IV girls make wool dresses and Clothing V girls may choose to make a wool suit as part of their complete outfit.

All material should be shrunk before being made into a dress or suit. The best method for shrinking wool is to lay the material on one side of a damp sheet, folding the sheet over the material. Roll up loosely and leave for 6 hours, preferably overnight or until dry. If the material is not straight, it should be eased diagonally into shape until it lies straight. This is done while the material is still damp.

The seam finish for wool depends on the weight of the material and on how much it ravel.

Wool materials which ravel may need to have the seams bound with a material seam binding. These that ravel but a little, may be stitched or be pinked.

Pressing is just as important or more so in a wool garment than in any other. A seam should always be pressed before another seam is made over it. For example, the seams in both the waist and skirt should be pressed before the two are stitched together.

Clothing IV girls make over a dress, make a slip and a child's garment. Clothing V girls make a complete outfit of any style, make over a dress and make an accessory.

Some Pettis county girls in Clothing V are planning to make leather gloves and purses to match. Before a girl should attempt to work with wool which is expensive material, she should have done much above average work on her cotton garments in Clothing III.

Leaders and members attending this meeting were: Alberta Lane, Quisenberry; Mrs. Edwin Bulte-meyer, Smithton; Mrs. Kenneth Lewis, Georgetown; Mrs. Howard Paige, Walnut Grove; Stella Sperber, Walnut Grove; Mrs. Paul Read, Quisenberry; Mrs. F. B. Van Dyke, South Abell; Mrs. Milo Ives, Pacific; and Mrs. W. H. Sperber, Walnut Grove.

Still Time To Use Fertilizer

A lot of folks have been in a hurry to get their gardens planted, and they have failed to apply fertilizer. Allan Purdy of the University of Missouri says you can still apply fertilizer with many vegetable crops to good advantage. One of your early crops, peas, will benefit from fertilizer cultivated into the soil along side of the row when the peas are about three inches high. About two teaspoons, or one pound, of a complete fertilizer such as 4-12-4 to each 40 feet of row is suggested. Other early crops which benefit particularly from fertilizer applications include cabbage, broccoli, and cauliflower.

The nitrogen in commercial fertilizer is soluble and the spring rains carry it even deeper into the soil than where you place it. This makes it readily available to the roots of the garden vegetables. The nitrogen that is in organic matter and manures is rather slowly available during cooler weather and becomes more rapidly available as the soil warms that early vegetables especially need nitrogen supplied by commercial fertilizer.

Soil Saving Dam Being Built

The complete structure, one x six boards were used for the baffle and will be removed later. A drain was left under it so no water will stand in it.

The above picture is of a Missouri Soil Saving Dam, such as will be built at Sherman Pritchards, Wednesday, May 5th. It is designed to be used at the lower end of a terrace outlet, where the water spills off into a ditch or creek, to prevent a ditch being cut back up the terrace outlet.

These structures can be varied in size to take care of different sized water-sheds and higher or lower overfalls. The structure at Pritchards will handle the water from 2 terrace outlets that protect about 80 acres. It will have a notch 3 feet deep and 12 feet wide and will let the water down 8 feet from the bottom of the notch to the floor of a bridge 200 feet away.

Mr. Pritchard lives 5 miles west of the junction of Highways 65 and 52 and 1/2 mile south of 2 miles west and 1 1/2 miles north of Ionia. The meeting is called for 1:30 Wednesday afternoon, May 5th.

Killing Of Weeds Through The Use Of 2,4-D Practiced

Killing weeds by the use of 2,4-D is a comparatively new development. Many things are to be learned about the use of chemicals. Some of the facts that seem to be pretty well worked out are given in the following, which has been condensed by the Extension Agent from information secured from J. Ross Fleetwood, Extension Specialist in Field Crops, University of Missouri.

2,4-D is the best selective spray available for controlling broad leaved weeds in lawns (dandelion, chickweed, plantains, henbit, shepherds purse, knotweed). Ordinarily lawn grasses, except bent and buffalo grass, are not affected. However, care must be taken to avoid spraying on valuable shrubbery and other ornamental plants.

September treatments, which permit the grass to fill in the bare spots for a considerable period before weed seedlings start, are being increasingly used instead of spring treatments.

The spot treatment of susceptible weeds in pastures or the spraying of areas where legumes are not an important part of the pasture turf is another use for 2,4-D. Weeds such as thistles, ragweed, cocklebur, and others come in this classification.

Standard applications of 2,4-D offer no danger to livestock. The sprays are non-corrosive, non-explosive and present no fire hazard.

Control On Bindweed
With an abundance of moisture, bindweed can be controlled or killed in almost any stage of growth. Just prior to bud formation in the spring is a better time.

The slight toxicity to the soil soon disappears after treating. The most sensitive plants can be safely planted 30 to 60 days after the soil has been treated. However, this toxic effect emphasizes the importance of caution in making any seedlings immediately after application.

There are three kinds of 2,4-D—metallic salts, amine salts, and esters. The first is less effective and the esters most effective in killing plants. The oily character of the esters makes them more effective under dry conditions or when rains fall soon after application.

The metallic salts are readily soluble in water and are usually easier to handle than the others. Seedlings or plants in active growth are more susceptible to injury by 2,4-D. Many plants seem to develop an immunity when mature or when dormant as in a drough. For example in lawn weed control it seems to be desirable to fertilize ahead of spraying.

Low temperatures (40 degrees-60 degrees F) slow up but do not reduce the final effect. Extremely high temperatures by checking growth may contribute to poor kills.

A recent development is the use of a low volume spray nozzle. Five gallons of solution per acre is becoming common. However the concentration must be 20 times greater than when 100 gallons are used. Thirty to 40 pounds pressure is sufficient and requires less water, less labor and less expensive equipment.

Pre-emergence spraying of corn is a doubtful practice. It has some promise, however. It is effective throughout the season unless the soil is stirred. However some soils seem to give trouble with corn stands. If this is used, the soil should be prepared and corn planted. Then 1 1/4 to 2 pounds per acre should be applied. The soil should be left unmolested the rest of the season.

Corn Is Sensitive

Corn is somewhat sensitive to 2,4-D especially in its early stages. However 1/4 to 1/2 pound of 2,4-D may be sprayed safely, at any stage of the growth. A monohydrate sodium salt is best. This will not kill grasses or all weeds, but may be used as a supplement to cultivation. If this is done, spray when weeds are small and get no more on the corn leaves than is necessary to get the material on the weeds. If extreme care is used, 1 pound per acre may be applied.

In extreme cases as much as 1 1/2 pounds may be used per acre. This may cause some injury to corn but extreme weeds conditions of the field might justify using this amount. Lodging of the corn may occur. If lodging does not occur the corn may recover from these heavy dosages.

2,4-D in small grain should not be used only when weeds are a serious threat. Such spraying will likely injure the crop, as well as kill the legumes with the small grain. The recommended rates of application are 1/4 to 3/4 pounds per acre at the late stooling to early booting stage.

The following list of plants has been divided as to the ability of 2,4-D to kill them, based on present information.

A. Annual and Winter Annual Weeds:

Group 1—Susceptible—easily killed, especially in early stages of growth. 1-1 1/2 pounds per acre.

Beggar ticks, bitter winter cress, blue bur, butterprint, carpetweed, cocklebur, false flax, stinkweed, hemp, annual morning glory, mayweed, mustard, perrgrass, pigweed, henbit, mallow, jimson weed, kochia, cinquefoil, sow thistle, sunflower.

Group 2—Intermediate—less easily killed but will respond under favorable conditions and higher concentrations, 1 1/2-2 pounds per acre.

Bedstraw, buckwheat, wild, chickweeds, dog-fennel, doddies, fleabanes, lamb's quarters, lettuce, wild, smart weeds, speedwells, purslane, knotweed.

B. Perennial and Biennial weeds:
Group 1—Susceptible—Tops readily killed in early stages, roots often killed in one application. 1-2 pounds per acre.

Artichoke, hedge bindweed, bushhorn, bull thistle, burdock, catnip, chicory, cinquefoils, dandelion, wild sweet potato, vervain, horsetail, stinging nettle, plantains, rosin weed, wormwood, ground ivy, gumweed, heal-all, water hemlock, wild parsnip.

Group 2—Intermediate—Tops killed at early stages of growth, roots seldom killed except by repeated treatment. Control possible but eradication not entirely certain. 1 1/2-2 lbs. per acre.

Bindweed, buttercups, Canada thistle, docks, dogbane, pokeweed, poverty weed, sorrel (red, sheep), wild garlic or onion, teasel, goldenrods, yarrow, goats beard.

Group 3—Resistant.
Asters, cactus (prickly pear), climbing milkweed, mullein, ox-eye daisy, ground cherry, milkweed, wood sorrel, ferns, nimblewill, horse nettle.

Resistant Annuals
Buffalo bur, catchflies, corn cockle, grasses, night sand, sandbars.

C. Woody plants—The data on this group is rather uncertain. 1 1/2-2 pounds per acre.

Group 1—susceptible—Leaves and current years growth readily killed. Entire plant often readily killed by repeated treatments.

Alder, aspen, birch, black; box elder, cherry, wild; cottonwood, elderberry, hazel, honeysuckle, plum, wild; sumacs, Virginia creeper, walnut, tamarisk, grape.

Group 2—Intermediate—Leaves and current years growth killed under favorable conditions and high concentrations (1 1/2 to 2 1/2 pounds) especially of ester formulations. Complete kill likely but more than one treatment will be required.

Black locust, buck brush, elm, mulberry, poison ivy, willows, tree of heaven.

Group 3—Resistant—Neither leaves nor stems seriously injured with present formulations and treatments.

Blackberry, ash, dogwood, meadowsweet, red cedar, raspberries, rose (wild), Osage orange.

The amounts recommended in the preceding is one the basis of 100% 2,4-D acid. Most materials run less than 100% hence the pounds per acre should be increased. It is wise to follow the instructions given on the container.

Almost 2,000 miles of the Mississippi river are navigable.

Do's-Don't In Artificial Insemination

Program Designed To Improve Dairy Cattle Quality

The following suggestions have been made to make the artificial insemination program more successful. The Pettis County Association is progressing well in its program to improve the quality of dairy cattle in the county. Such a program makes it possible for small dairymen to secure the use of good sires at a reduced cost.

These suggestions are put out by the Association in cooperation with the Extension Service of the College of Agriculture, University of Missouri. They are:

1. Carefully observe cows for heat in morning, at noon and late afternoon.

2. Call the inseminator for service promptly. Cows to be bred that day must be reported by the hour designated by the local association.

3. For good results cows must be bred not later than 6 hours after the end of heat period. A few cows will need to be bred early or late. Notify your inseminator of this when calling.

4. Cows first observed in heat in the morning must be bred the same day for good results. If bred the second day results may drop as low as 30%.

Cows not in heat in the morning but definitely in heat at night, must be bred early the next day for success.

6. Record all heat periods on the barn breeding chart, whether the cow is bred or not.

7. Do not breed cows until they have been fresh at least 40 days.

8. Leave cows to be bred in barn or stallion. When there is more than one cow in the barn mark the one to be serviced. This will save the inseminator time.

9. Have the registration papers available to the inseminator when purebred cows and heifers are to be bred. The inseminator must identify all registered animals by color markings or tattoo before issuing a breeding certificate which is used in registering the calf.

10. For returned service have the last breeding receipt available to the inseminator. Carefully file all breeding receipts. They may be needed later.

Do's and Don'ts
Do's
Notify inseminator when cow is first noticed in heat.

When notifying inseminator give breed of cow, time cow was first noticed in heat, and direction on how to get to farm.

Confine cows to be bred to stallion or special stall.

Have registration papers available to inseminator at time of breeding.

Check herd at least twice daily when there are cows to be bred. Keep breeding and calving record on stable breeding card.

Don'ts
Don't let cows run with herd while in heat.

Don't breed heifer until proper age. (Guernseys and Jerseys 15 to 18 months old and Holsteins 17 to 20 months old.)

Don't breed cows until they have milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

Don't breed cows with herd until they are milked at least 40 days after calving.

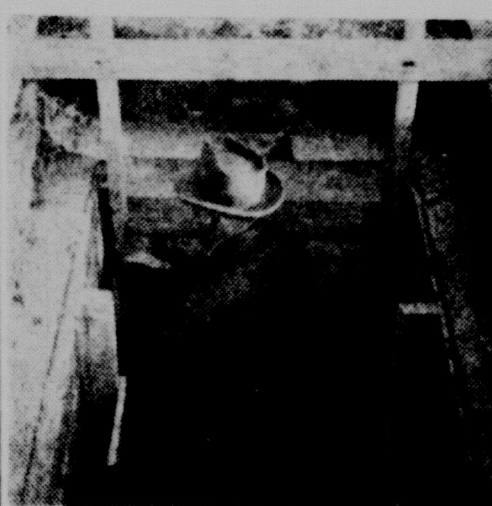

Don't breed cows with herd until they are milked at least 40 days after calving.

Removing Of Reusable Forms

It is important that folks renting the reusable forms for building concrete septic tanks use care in removing them. In the picture above County Agent Roy I. Coplen is "backing out" the machine bolts that hold the corners of the form together. The nut is on the side next to the concrete and as soon as the form is removed the nuts can be taken out of the concrete.

When the bolts are removed the ends can be pulled back toward the center of the tank and lifted out. Then the sides can be pried loose and lifted out.

Two more tanks have been built since the demonstration meeting at Wellivers. One by Henry Alt of Sedalia Route 1 and one by Maurice Hutcherson, Vocational

Agriculture Instructor at Green Ridge.

Folks planning to rent the forms, which belong to the Pettis County Farm Bureau, should make their applications at the County Extension office as soon as possible.

Egg Laying Record For March

A total of 14 complete poultry summaries were sent in to the county extension office for the month of March. These records represent 2990 birds with a total egg production for the month of 58,708 eggs. The average egg production per bird was 19.63 eggs. Five high flocks for the month are listed below:

Name	Address	Breed	No. Hens	Av. No. Eggs
F. L. Bodenhamer	Smithton	B. Rocks	208	23.4
Ed Schwartz	Smithton	B. Rocks	297	23.1
Allie Abbey	Houstonia	W. Leghorns	99	21.9
C. E. Graven	Armstrong	N. H. Reds	71	21.45
Sherman Pritchard	Green Ridge	Austra W.	134	21.22

C. E. Graven	Armstrong	N. H. Reds	71	21.45
Sherman Pritchard	Green Ridge	Austra W.	134	21.22

Poultry records are kept by the record keepers on a day to day basis and are sent in to the county office by the fifth of the following month.

Pasture For Pullets

Now is a good time for poultrymen to plan for pasture for the pullets which make up the laying flock next year. Good pasture should be located in a field where no poultry has been run, nor poultry droppings spread for the past two years. This is just a good sanitary measure. Good

pasture will result in lower costs and a more vigorous flock of pullets to place in the laying house in the fall.

Some of the home made poultry equipment including barrel waterers and range feeders will save time and labor in caring for pullets on range. Building plans on this equipment are found in Missouri Circular 531 "Homemade Poultry Equipment" says E. P. Kruse, Assistant County Agent. This circular is available at the County Extension office.

Camp Period For 4-H's July 20-23 Clubs Meet May 8

The Pettis County 4-H club camping period has been set for July 20 to 23. A total of 60 Pettis county campers will camp with 4-H members from Benton and St. Clair counties.

Reservations for camp and a \$1.50 deposit are now being accepted at the County Extension office at 410 1/2 South Ohio. Any regularly enrolled 4-H club member desiring to attend camp should make a deposit by May 1st, if they have not already done so. In the event the number of requests is too large the deposit will be refunded to those who cannot attend. The total camp fee for the three day period is \$5.00.

Activities at the annual 4-H camp include group games, swimming, hikes, tours and discussion groups.

A 4-H club recreation meeting has been planned for club members, parents, and leaders on Saturday night, May 8th. The event will be held at Convention Hall, Liberty Park from 8:00 to 10:30. Active group games and folk games will be played with all present having an opportunity to participate.

The recreation committee includes G. L. Haggard, Anna Mae Welliver and Mrs. G. L. Haggard. Wm. P. McCune, Elva Huddleston, and Earl Paige are on the refreshment committee.

The county meeting is being held to give club members an opportunity to play together, renew old acquaintances and make new ones.

Best To Plant Corn in Rows

When you are planting your sweet corn, those of you with small gardens sometimes plant corn in single rows. As a result, the ears may be poorly filled. The reason for this is simple. The pollen from the tassels must fall on the silks to bring about pollination and the development of full-grained ears. With a single row of corn, the wind may drift most of the pollen away from the silks.

On these smaller plantings of corn it is better to plant a small rectangular patch of three or more rows. Also keep in mind that this little patch should be of one variety or at least a combination of varieties which send out their silks and tassels about the same time.

Flies and Rats Topic for Talk

Flies and rats, two annoyances to Pettis county farm families, will be the subject of discussion at a meeting at the assembly room at the court house Friday, April 30. This meeting is being announced by the extension service in request of the Home Economics extension clubs in the county. George Jones, extension specialist of the University of Missouri will be the principal speaker.

Use of DDT to control flies that bother livestock and that are a menace to the health of humans, will be discussed by Mr. Jones. Scarce feed supplies justify a war on rats. How to fight these rodents will be outlined.

A cordial invitation to those interested in controlling the rats and flies is extended.

thoroughly. Add just enough water to wet the bran so that it will make a ball when pressed in the hand. This bait is scattered evenly in late afternoon over the garden or tomato field. Try to avoid getting it on plants. The same mixture also will kill grasshoppers.

Be careful with the mixture since it is poison. After being spread evenly and thinly, it does not seem to cause trouble.

One of the most effective means is to use a poison bran mash. This is made by mixing 25 pounds of bran and one pound of white arsenic or paris green. The bran and the poison are mixed dry very

er shelling and fumigating or feeding it out rapidly is necessary to cut down on loss.

It's always discouraging to go out in the garden and find some of our treasured tomato or other plants cut off. Usually, cutworms are to blame for this. So, veteran gardeners take steps which will do away with these worms before they can damage plants.

Hens To Work At Top Speed

Generous Use Of Eggs In Preparing Of Good Meals

This is the season when the hens work at top speed—they enjoy the longer daylight hours and make the most of the bright spring days by laying more eggs. And you can benefit by the old rule of supply and demand. For with more eggs available the price is lower but egg food values are as high as ever.

Eggs are among our most versatile foods for they may be combined with every kind of food. They may be used in vegetables, sandwiches, beverages, salads, breads, desserts, salad dressings and sauces. And, of course, eggs for breakfast is an old American custom as popular as turkey for Thanksgiving.

It is good meal planning to include an egg for each member of your family in each day's meals. Miss Josephine Flory, Missouri University extension nutritionist says that eggs are a good building food, as well as a good protective food. Along with meat and milk they are a source of high quality protein necessary for life and growth. Egg yolk is an excellent source of iron of the kind needed for red blood. And both egg white and egg yolk are rich in riboflavin needed for general health and clear skin. Vitamin A, found in abundance in egg yolk, will help keep your eyes healthy and build up resistance to colds.

A tasty luncheon or supper dish can be made of hard cooked eggs, cubed boiled potatoes, chopped parsley well seasoned, and white sauce. You will need no special recipe. Allow a small potato, 1 egg and 1/2 cup of white sauce for each person. Dice the potatoes, slice the eggs, combine with white sauce and parsley, and put into a buttered baking dish. Top with buttered bread crumbs and bake until hot through. Served with a tossed green salad, fruit dessert, bread and a beverage, this egg dish will complete a nourishing and appetizing meal.

There is enough cement in Grand Coulee dam to build three Great Pyramids.

Chlorine dioxide is very efficient for bleaching flour.

**Indians Are
Still Without
A Blemish**
**Manager Boudreau
Comes up With a
Murderers' Row**
By Joe Reichler
Associated Press Sports Writer
Manager Lou Boudreau has
come up with his own "Murder-
ers Row" at Cleveland to toss a
temporary scare into teams with
designs on the American league
pennant.
The Indians have won four
straight games to become the only
major league club so far without
a blemish and they have done it
by following a very simple for-
mula.
They have just knocked the
stuffing out of the ball.
In the four games, Boudreau's
athletes have pounded out 45 hits,
including five doubles, two triples
and eight home runs. Only the
slugging New York Giants of the
National league, with nine in seven
games, have more round trip-
pers.
Ken Keltner smashed two home
runs and Robinson added another
in the Indians' 7-4 conquest of
the Detroit Tigers yesterday.
Sunday was home run day in
the majors with a total of 19
round trippers around the two
circuits.
Joe Dimaggio connected for a
home run with two mates on base to
contribute to the New York Yan-
kees' 5-4 win over the Boston Red
Sox before 68,021 at Yankee Sta-
dium. It was the sixth loss for
the Red Sox in seven starts this
season.
Washington remained in second
place with a 5-2 win and lost
record when it gained a split in
the doubleheader with the Ath-
letics in Philadelphia before 22-
160 fans. The Senators lost the
opener 0-4 and bounced back to
defeat the A's 7-3, 1, the second.
The Chicago White Sox won their
first game of the season, trim-
ming the Browns in St. Louis
4-1, but Zach Taylor's men came
back to win the second game 7-6.
Getting exceptionally fine pitch-
ing from veteran Bobo Newsom
and Mike Sheldon Jones, the
Giants whipped the Braves twice
before 35,954 Bost'n rooters, 6-2
and 6-0.
The Philadelphia Phils clubbed
four Brooklyn Dodgers, pitchers for
14 hits and a 7-3 victory.
Russ Meyer pitched the Chi-
cago Cubs to a 3-1 one-hit tri-
umph over the St. Louis Card-
inals. Rookie outfielder Hal
Jeffcoat smashed a two-run ho-
mer off Murrey Dickson in the
first to give the Cubs the margin
of victory.
Fourteen pitchers saw action at
Cincinnati where the Reds and
Pittsburgh Pirates divided a double
header before 26,098 fans. The
Reds won the opener 7-6. The
Pirates won the second 13-10.
**Mrs. Herbert Moore Makes
Hole-In-One at Poplar Bluff**
POPULAR BLUFF, Mo., April 26
—(AP)—Mrs. J. Herbert Moore, us-
ing a driver, made a hole-in-one
on the par 3, 184-yard seventh
hole at Westwood Hills Country
club course yesterday. It was a
blind drive.
The hole-in-one was the first to
be made at Westwood Hills since
the club was organized 11 years
ago.

**Donkey Baseball
At Housei Park**
Tonight the Northeast Athletic
Club sponsors a Donkey Baseball
game at Housei Park, starting at
7:45 o'clock. A second game is to
be played on Tuesday night.
The teams to ride the donkey's
will be the Sedalia Blues and the
Sedalia Merchants. A number of
business men have signed up to
ride the donkey's during the
games.
Money derived from these two
games will be used by the North-
east Athletic Club in their youth
work.
The game between the Deey-
water ball club and the Sedalia
Blues scheduled for Sunday after-
noon had to be cancelled due to
rain. The Deeywater aggregation
arrived early and was ready to
take the field when the downpour
arrived and turned a well condi-
tioned diamond into a sea of mud.

**Home Run Habit
Hits Association**
By the Associated Press
The home run habit has hit the
American Association.
Five circuit blowers were blasted
in yesterday's doubleheader be-
tween Milwaukee and Indianapolis
as the two teams split. The
Brewers snapped the league lead-
ing Indians' five game winning
streak with a 10-8 opening tri-
umph. The Tribe maintained a
two game margin on top by cap-
turing the nightcap 11-10.
Milwaukee smeared three In-
dianapolis hurlers for 17 hits in
the first contest including homers
by Les Studener, Carden Gillen-
water and Nanny Fernandez. The
Tribe collected 13 1/2 runs but left
12 runners stranded.
The Indians twice overcame
Milwaukee leads in the afterpiece
with Red Barrett, Tribe hurler
No. 4 doubling home the winning
run in the last of the seventh.
Indianapolis tied the score 10-10
in the sixth on Frank Kalin's
three run homer.
Milwaukee scored five times in
the first round and added four
more in the third, including a
two-run round tripper by Heinz
Becker.
Three home runs were slam-
med in Minneapolis' double win
over Toledo by duplicate 8-5
scores. Babe Barns elected one
in each game while Cleton Ray,
also of the Millers, hit one in the
opener during a three run rally
in the ninth to break a 5-all
deadlock. The two victories
boosted Minneapolis into a second
place tie with St. Paul.
St. Paul and Louisville divided.
The Saints engineered a four run
eighth inning for a 10-6 win after
losing the opener 3-1.
Columbus made a clean sweep
of its series with Kansas City
with 5-4 and 14-7 decisions. Char-
ley Harrington's single and Gene
Thompson's double sparked a 2-
run ninth inning rally for the
Redbirds' opening triumph. Kan-
sas City used fight pitchers in
the nightcap while seeking pinch
batting power. Columbus got on-
ly nine hits from the troop.
League teams were on the road
today and will resume play to-
morrow night.

The Innocent Impostor
By Renee Shann
COPYRIGHT BY RENEE SHANN;
DISTRIBUTED BY NEA SERVICE, INC.
"I was a strange man! Still, I
had hard work to make you speak
to me."
"Ah, but you didn't seem at all
strange. I'd seen you so often
traveling down in the same car-
riage."
"Oh! So you had noticed me?"
"But of course."
"Mouse, you're adorable! Gosh,
that's made you go quite pink!"
The guard blew his whistle. She
leaned out of the window im-
pulsively, holding out her hand
to him.
"Goodby, and thank you."
He ran along the train as it
began to move slowly down the
platform.
"Mouse?" he called.
"Well?"
"I suppose you know I'm in love
with you?"
She gasped. She didn't know
what to say to him. She just stood
there at the window watching him,
waving to him as at last he
stopped running, her heart thump-
ing madly. Then she sank down
in the seat wondering if she were
dreaming. She sat very still,
her hands folded in her lap, trying
to quiet down a little. Was this
the way her mother had felt when
first she'd met her father? Well,
she, her daughter, knew what had
happened. She'd run away. Been
cut off completely by her family.
Been deserted by her lover and
left to die of a broken heart.
Shouldn't that be a warning to
her?
Oh, if only her mother had
lived so that she, Patience, could
have grown up with her to guide
her! She'd have understood that
a time was bound to come when
something like this would happen.
How could Aunt Helen and Aunt
Alice be expected to know the way
she was feeling? They were two
old maids. They'd probably
neither of them ever been in love
in their lives.

Social Events
Mr. and Mrs. Chester Bass, who
were married April 17, were hon-
ored with a dinner given Sunday
at the home of his parents, Mr.
and Mrs. J. F. Bass, of Smithton.
Mrs. Bass was formerly Miss
Maxine Ritter.
The dinner to which all con-
tributed was served at the noon
hour to the following: Mr. and
Mrs. Chester Bass, Mr. and Mrs.
Elmer Mitchell, and Miss Dorothy
Treece, of Sedalia; Mr. and Mrs.
Elmer Bass, Larry Jo and Paul
Dan, of Florence, Miss Gertrude
Musslin, Miss Jean Musslin of
Syracuse; Mr. and Mrs. William
Bass, Mr. and Mrs. Kenneth Bass,
Mr. and Mrs. J. F. Bass, Lloyd and
J. E. Charles Henderson, and John
Dee Hunt all of Smithton.
The afternoon was spent in con-
versation and music by John Dee
Hunt and Gertrude and Jean
Musslin and also in taking pic-
tures.
The guest of honor received
many nice gifts.
Mrs. Vivian E. McMullin went
to Kansas City today on business
and will remain tonight to hear
Nelson Eddy who will appear in
a concert there.
Mr. and Mrs. George Cummings
and son, of Houstonia, had as their
dinner guests Tuesday evening,
Mrs. Virginia Finley and daugh-
ter, Janice, and Mrs. Frank
Schouten, all of Sedalia.

Church News
The Loyal Circle of the Epworth
Methodist church will meet at 2:00
o'clock Tuesday afternoon at the
home of Mrs. J. W. Starke, 1617
East Ninth street.
The first internal combustion
engines, designed about 1680, were
made to operate on gunpowder.
ASSIGNEE'S NOTICE
Notice is hereby given to all the
creditors of Guy C. Swearingin doing
business as the Sedalia Tobacco Company
of Sedalia, Missouri, that I will on the
10th day of May, 1948, at the office of
Lamm & Barnett, Attorneys, 309 South
Ohio Street, Sedalia, Missouri, proceed
publicly to adjust and allow demands
against the estate and effects assigned to
me by Guy C. Swearingin doing business
as The Sedalia Tobacco Company for the
benefit of creditors, and will continue said
hearing during the two following days.
Dated April 5, 1948.
CHESTER L. WOLFE,
Assignee of Guy C. Swearingin,
d/b/a Sedalia Tobacco Company
(April 5, 12, 19, 26, 1948)

**Sedalia Tigers and
Richmond Rained Out**
The baseball game between the
Sedalia Tigers and the Richmond
club, which was scheduled for
Sunday afternoon on the Hub-
bard park diamond, was rained
out.
The Tigers will play the Mar-
shall Ramblers at Marshall next
Sunday.
**Jr. Legion Game is
Rained Out at Marshall**
The game between the Sedalia
Junior American Legion and the
Marshall Junior American Legion
at Marshall Sunday was played
out. Three innings were rained
with the score 5-0 in favor of
Sedalia.
The Sedalia Junior Legion will
go to Warsaw on Sunday, May 2.

Monday Matinee
Indications are that only seven
colts will start in the Kentucky
Derby Saturday, bearing out
Brownie Leach's theory that one
standout racer will scare off a
lot of possible contenders. . . Col-
umbia U. will play its 1,000th
baseball game this week, weather
permitting. The Lions likely
would trade a lot of them for
NYU's current ten-game winning
streak. . . Bill Rigney, who has
been working out with the Yan-
kees for a couple of days, hopes
to rejoin the Giants tomorrow.

Sport Roundup
By Hugh Fullerton, Jr.
NEW YORK, April 26—(AP)—
Judging by very early results, you
may not be far wrong if you pick
Yale to be the United States entry
in the Olympic eight-oared row-
ing race. . . Navy and Harvard
also are rated as prime contend-
ers for this honor, which is vir-
tually a college monopoly. But
it begins to look as though Alan
Walz, one of the few non-Wash-
ington coaches in the rowing busi-
ness really had something in his
extra-fast beat for sprint races.
The Elis hit 38 to the minute all
the way against Penn and Colum-
bia Saturday and made it look
easy. And don't forget, the
Olympic race is at 2,000 meters,
so you can throw out the three
mile races as determining factors.

Green Ridge Club Meeting

Mrs. Floyd Egbert entertained members of the Green Ridge Mutual Improvement Club at her home southwest of Green Ridge last Saturday afternoon.

The president, Mrs. Waldo Harbit, presided over the meeting. An interesting program was presented. Mrs. Forrest Calvert reviewed an article, "What Will It Cost You?" by Style Bridges and Mrs. Harbit gave a talk, "Thy Kingdom Come."

Mrs. Egbert was assisted by Mrs. Carl Johnson in serving refreshments to ten members and two guests. Guests were Mrs. John Ruffin of Windsor, and Mrs. Melford Lewis of Bryson.

The home was attractively decorated with bouquets of spring flowers.

The forget-me-not formerly was called "scorpion-grass," and was thought to be a remedy for the bite of the scorpion.

Some blast furnaces in the steel industry are air-conditioned to reduce the moisture content of the air blown into the furnace.

Visiting Relatives In Knob Noster

Lt. and Mrs. Jack L. Oxley and son Gary Arthur arrived in Knob Noster Thursday to visit Mrs. Oxley's parents, Mr. and Mrs. H. A. Wimer. Lt. Oxley has been stationed in Adak, Alaska since July 1946 and Mrs. Oxley went to Adak in February 1947. They came to Seattle, Wash., by plane and drove from there to Knob Noster.

Mrs. Doyle D. Bolton and sons Ronny and Jerry of Bagwell, Texas are also visiting her parents, Mr. and Mrs. Wimer. Mr. Bolton accompanied them to Knob Noster but went on to Omaha, Neb., on business.

Samuel F. B. Morse made his first telegraph instrument from an old picture frame.

DIAGNOSIS: BETTER SERVICE FOR YOU!

Car repair is speedier and less costly here because we put the finger on your special problems faster.

Every serviceman in this organization is a member of the Master Technicians Service Conference, and knows how to make fast, sure diagnosis of mechanical problems. Our mechanics are trained to find and fix difficulties quickly—there's no guessing and fooling around to find out what's wrong.

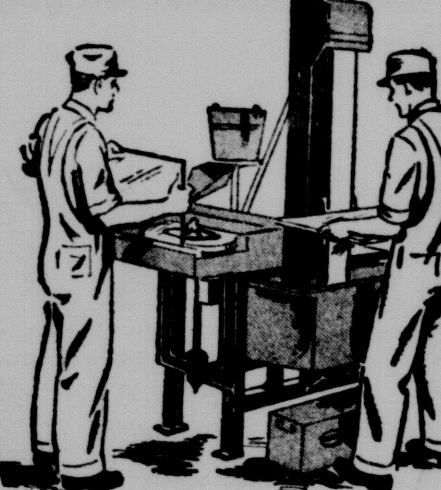

You can't beat the technical automotive service knowledge built up by our new post-graduate training. You can't find servicemen who know your De Soto or Plymouth better. Working by factory-approved methods, using factory-engineered parts, we keep your car in perfect condition. Come in today for our thorough check-up.

Mr. & Mrs. Windsor Observe Silver Wedding

They were married on April 26, 1923 and so are celebrating their silver wedding. He was Prince Albert, Duke of York. She was Lady Elizabeth Bowes-Lyon. But not until Dec. 10, 1936, when his elder brother abdicated the throne of Great Britain, were they much in the news. They are, by nature, quiet people. When he became King George VI, they were forced into the limelight. The succeeding years have been troublous, capped by the war, the subsequent hard times in England and the present international situation. Their reign has seen the coming of Socialist government to England and the loss to the empire of important possessions, notably Burma and India. These pictures, taken especially to commemorate the silver anniversary, show King George and Queen Elizabeth in informal domestic roles and as rulers of the British empire.

Lady Elizabeth Bowes-Lyon, if she hesitated at all, did so because she shied at the blinding glory of the throne.
True, the prospect of the Duke of York's ascending that throne appeared remote. But some of the queen's oldest friends vow she had a premonition, supported perhaps by a gypsy's prophecy, that she would one day be a queen.
Popular Marriage
That forewarning must have been more insistent than ever on the spring morning in 1923, amidst the splendor of the wedding in Westminster Abbey. There had never been a more popular royal marriage in the realm. Nation and empire rejoiced in what was considered a striking example, at the very top of the scale, of the new spirit of democracy.
The king and queen share hobbies, other personal interests, as well as their exhausting responsibilities and unshakable belief in the future of their commonwealth. Most important of their hobbies together are gardening and photography. Each has a collection of cameras and a fund of photographic lore and enthusiasm also for home movies.
Have Many Interests
They enjoy long walks together, at Windsor, Sandringham, Balmoral. Both are good dancers. Both are keen on music, classical and popular pieces. The queen, known as the most musical member of the royal family, has a deeper appreciation of fine music and knows more about it technically, than the king. She is an accomplished pianist and an authority on Scottish folk songs.
She is also the greater reader, and to a considerable extent the king's literary advisor. Both are interested in young people, and lend their patronage to child welfare and youth welfare movements.
In the pre-1937 years the family life of the Yorks differed little from that in most good British homes. The duchess often put on an apron and baked cakes and scones. She and the duke played on the floor of the nursery with the two princesses and their favorite teddy bear. Long evenings were passed by the fireside, with books and a radio set the duke made himself; the duchess played her favorite Beethoven.
Like Household Chores
To this day the king and queen like to do household chores—but find little time for them. The king keeps his hand in his farming enterprises at Sandringham. Livestock breeding and dairying engage his particular attention.
Both are much interested in home furnishings and decoration, and when interior alterations are to be made they discuss them with

workers down to the smallest details of the tiniest changes.
—More than anything else, the Queen enjoys being alone with her family. Increased public duties have made this harder. They breakfast alone, and sometimes have evenings or week-end hours to themselves.
In private the King and Queen are "Bertie" and "Elizabeth." The two princesses are called "Lilibet" and "Margaret." Now and then the King refers to the Queen as "Mother."
The King and Queen have no secrets from each other, not even little ones. He doesn't surprise her with a new tie or scarf or suit, nor does she spring a new hat or dress on him.
